SUN Collision to Showcase Shop Management Integration at the Southeast Collision Conference

SAN DIEGO, Calif., April 28, 2025 – Those planning to attend the Southeast Collision Conference are invited to visit SUN® Collision at booth #112 to learn how its award-winning software helps auto body shops save time and money with comprehensive OEM information and streamlined blueprinting for collision and mechanical repairs.

Attendees can also learn how its newly integrated shop management capabilities enable shops to manage business operations, customer service and mechanical repairs on a single platform. With the recent integration, SUN Collision Repair Information is now compatible with Mitchell 1's Manager® SE shop management software and the Snap-on® ShopKey® shop management system.

Additionally, the SUN Collision team will demo SUN's Repair Package, an exclusive feature that cuts blueprinting time in half. The feature integrates with estimating systems, mapping data with OEM repair information to support insurance claims.

"We're looking forward to exhibiting at the Southeast Conference to demonstrate how SUN Collision streamlines workflows and makes critical repair information easier to access – enabling shop professionals to work faster and improve their bottom line," said Chris Bonneau, SUN Collision business manager.

Among its comprehensive features, the shop management software includes the industry's widest selection of electronic parts catalogs, an interactive work-in-progress dashboard, over 180 integrated reports, plate-to-VIN decoding and mobile digital inspections. Additionally, it offers integrated communication tools for appointment scheduling, approvals and invoicing.

SUN Collision Repair Information provides easy access to both OEM collision and mechanical repair data through a single login. With on-demand access to current repair specifications and procedures, [SUN Collision](#) supports all makes and models, including most electric and hybrid vehicles, and those equipped with advanced driver assistance systems (ADAS).

Taking place May 1-3 at the Greater Richmond Convention Center in Richmond, Virginia, the Southeast Collision Conference is presented by the Carolinas Collision Association and the Washington Metropolitan Auto Body Association. For more information, visit: <https://carolinascollisionassociation.com/scc-home/>.

ABOUT SUN COLLISION

SUN® Collision Repair Information, a brand of Snap-on, Inc., provides complete, accurate OEM data for collision and mechanical repairs that auto body shops can trust to fix any vehicle with maximum efficiency. Powered by its exclusive 1Search Plus search engine, the online software makes it quick and easy to access current repair procedures, diagrams and specifications for all makes, including the majority of Electrical Vehicles on the market and vehicles equipped with Advanced Driver Assistance Systems (ADAS). For information about SUN Collision and its products, call 877-840-1973 or visit suncollision.com.
